and Careful Care to 2,411 people. We continue working to provide care to the Nicaraguan families.

People who have been receiving Responsible and Careful Care for COVID-19, have frequently had associated conditions such as: Arterial Hypertension, Diabetes Mellitus, Obesity, Heart Diseases, Immunodeficiency Syndrome, Chronic Kidney Failure, a history of Cerebrovascular disease, Pulmonary tuberculosis and chronic pulmonary diseases.

In the current week, there were 8 deaths attributable to COVID-19 and other deaths which occurred in people who have been under responsible care, due to Pulmonary Thromboembolism, Diabetes Mellitus, Acute Myocardial Infarction, Hypertensive Crises and Bacterial Pneumonia.

To date, we have attained the recovery of 1,993 Nicaraguans.

Cases have been reported in outbreaks through clearly established Contacts.

We continue working on prevention and caring for our people, in the Name of God!
